

GENERAL CONSTRUCTION UNDERCARRIAGE

Engineered for low impact, general excavation and civil construction applications.

Komatsu General Construction Undercarriage

Engineered by Komatsu, General Construction Undercarriage is designed to fit our construction-class excavators for low impact, general excavation and civil construction applications. As the cost-effective alternative yet still within the Komatsu Engineering Standard (KES), you can expect to receive the same level of service and support when buying any Komatsu Genuine Undercarriage, making General Construction Undercarriage the right choice.
