

AUR30320

Certificate III in Automotive Electrical Technology

This qualification will provide you with the skills and knowledge used by tradespeople who service, diagnose and repair electrical systems and components in vehicles in the automotive electrical service and repair industry.

Course costs

Participants enrolling via an apprenticeship pathway may be eligible for subsidised training. Eligibility and student contribution fees vary state by state. Please contact Komatsu Training Academy for further information.

Learning outcomes

This qualification is designed to provide an industry recognised skills profile related to trade work as an Automotive Electrical Technology Tradesperson. Skills development is usually undertaken through an Australian Apprenticeship arrangement where the mix of on and off-the-job training is specified in the Training Plan associated with the Contract of Training between the employer and apprentice.

AUR30320 Certificate III in Automotive Electrical Technology gives you the training you need to start your career as a qualified automotive (electrical technology) tradesperson. You will learn how to service, diagnose and repair vehicle electrical and electronic systems and components. This qualification provides great scope for future work in both the automotive electrics and automotive technology related industries.

Duration

Up to 4 years.

Course duration may vary depending on your prior knowledge, skills and experience. If studying via an apprenticeship pathway this qualification is delivered face to face over a four (4) year period.

Training locations

- » Brisbane, QLD
- » Perth, WA

Recognition of prior learning (RPL)

If you are currently working in the automotive electrical service industry and have more than 3 years' experience, please talk to a Komatsu Training Academy representative about RPL. Our specialist trainers can develop a tailored training plan for you based on your existing skills, knowledge and experience.

Resources required

Please note participants will be provided with all learning and assessment material. Participants will require their personal protective equipment (PPE) relevant to their workplace policy and procedures for undertaking practical activities.

Entry requirements

Eligible participants are normally employed by an employer who works within the Automotive Electrical Service, Repair or relevant industry that would be suitable for an occupation.

Komatsu Training Academy recognises that not all participants will have the same level of ability in relation to reading, writing and performing calculations. All participants enrolling into a nationally recognised qualification will undertake a Language, Literacy and Numeracy (LLN) assessment, which is conducted online via LLN Robot. LLN Robot is an online system that combines Australian Core Skills Framework (ACSF) Testing, Course Profiling and LLN Support.

How to apply and enrol

Obtain an apprenticeship in **AUR30320**. Alternatively, if you have current existing knowledge, skills and experience, then complete a RPL Application. Enrolments can be made directly through the Komatsu Training Academy.
